Innovation talk feedback

Mahdi and Ammar · Fri 13 November

What went well

- You told it like a story, start to finish, and nobody froze.
- The forest behind your neighborhood that became houses. Real stories stick.
- Asking the coach about Walmart pulled him in. Keep it.

Fix before next time

- Say your names at the start, once each.
- Before you quote Mr. Zhian, say who he is: “He's _____, and he knows about forests because _____.”
- Say our websites out loud: WWF and the FAO.
- One solution, said the same way every time.
- End with one last line before “Thank you.”

Fix on the slides

- **Slide 3:** fix the map. Swap it for a real, clear map.
